The News.

We have, as usual, this morning a very full report of doings at Washington yesterday, by telegraph. The vote on the passage of the Lecompton bill in the Sanate is given. But two Southern Senstors voted against the monstrous swindle,-Messrs. Bell and Crittenden. Applause, and hissing, followed the announcement of the vote in the Senate in the gullery, but no unusual excitement was exhibited. Mr. Saward, yesterday, presented the resolutions of N. Y. in other scared simpleton. opposition to Lecompton in the Senate. A bill was presented to facilitate communication with the army in Utah. In the House, the discussion upon Lecompton was still going on. Little else

was done yesterday. The rebellion at Sonora has been successful. The government troops were beaten in several battles. The people of Rio Grande, it is said, were much interested in the success of the Arasonia bill to admit them as a territory. We have some later latelligence from the Utah army.-All is reported well at the Camp, and no suove ment of a military character is reported.

The St. Louis Democrat publishes a card from Gen. Lano, la which Governor Denver gets pretty roughly handled,

The Pennsylvania State Senate have passed resolutions endersing the Lecompton Villsiny by * vote of 18 to 11.

A heavy robbery was committed at New Orleans, on Sunday; \$1500 is money, and over \$100,000 in notes were taken from the office of H. Shepherd, Jr. The Court House, and all the county records

were destroyed by fire, at Savannah, on Satur-The steamer Mayara, from Liverpool, due at

Halifax, had not arrived. We have a very full report, this morning, of the proceedings of our State Legislature yesterday. In the Assembly, the proposed accordments to our City Charter, were discussed at length.

The Collingwood steamer will commence runing on the lat of May,

The New York produce market was fineer, and the demand for leading articles moderate.-In our own market, extra spring and winter wheat was in more active request, while ordinary club was lower.

The weather yesterday was extremely mild and balmy, with indications of a storm in the afternoon, but towards evening, the sky was clear and the prospects of a continuation of the fine weather invorable.

Submitting the Amendments. The News and Ald. Habber, make a great clato a vote of the people, after they have been adopted, or be they rejected by the people, the ing? effect is precisely the same. It has been repostedly decided, by the highest judicial tribunals. that the law-making power being vested in the logislatures of the several States, these legisla. divest themselves of that power. or devolve it upon others. Hence, if our legisno matter what the vote may be, to invelidate the act. Hanter & Co. understand this perfeetly well, and honce their protended zend to have the Charter Amendments passed upon by the people.

New what are these amendments? Their oftect is, to lop off One Hundand superfluous offices; to reduce entaries to a ressonable limit; to retrough the City Exponditures about One Hundred Thousand Dollars a year; to onsure fale assessments and equal Taxation; to stop the jobbing in Street Contracts, to curtail the power of the Cammon Council; to limit the amount of the Annual Tax, to provent any further issue of Oliv-Bonds and thy further increase of City indebtedness-in a word, to easure practical Extensor-MUST and REPORM.

Our Charter Amendments. On Tuesday, in the Assembly, Mr. Striver, one of the Representatives from this city, made a favorable report on the proposed amendments to our City Charter, and proposed that they be made the special order for yesterday, at 11 A.

M. The motion was agreed to. Col. STERVER'S report is signed by himself and by Messrs. Hanare the number of votes cast for each candidate rangement between them, in consequence of

We have good reason to believe that they will pass both Houses, without delay, and become a Law. So mote it be!--The Tax-Payers will celebrate the event with a general jubilce.

ANALARA.—During last evening's session of the Assembly, the galery (which was crammed full of persons expecting the case of Mr. Strong to come up,) gave symptoms of giving war.
There was a general rush of those underneath
towards the Speaker's desk. Some were knocked down by the stronger; the ladies looked pale, but did not scream, notwithstanding one of them had a young husband immediately under the

altery.

The cracking ceased, and the affrighted fugitives resumed their places under the gallery, which had not been at all emptied by the siarm, We doubt not that the flesh of some of the exposed will crosp when they learn that the gal-lery actually was giving way. The superincumbent weight upon the piliars crowded off the ceiling of the library room below. The gallery has been kept locked to day, and no one will be admitted until the requisite repairs have been made,—Madison Journal.

Our own opinion, as an "outsider" is, that the cost possible "repair" would be, to pull down the whole Capitol and build a new one.

Something Queer About It.

MR. EDITOR :-- I observe an "official" notice in the News of a redemption of 21 of our City Bonds, out of the "Sinking Fund." These Bonds, it appears, are to be redeemed at par, though most of them were lesued last year, and sold at from 50 to 75 per cent, below par. But what strikes me as queer is, that the "drawing" which decided what bonds were to be redeemed took place on the 1st of February, and that the result was not publicly announced till the 28d | torney, Corson 28, Fraser 26; for City Marshal day of March, more than seven weeks thereafter. Has anybody, meantime, been buying up those bonds at 50a55 cents on the dollar, expecting to make a good thing out of the city? Or why should the city pay par for Bonds, which it canmor about submitting the Charter Amendments | go into Wall Street and buy up at 40a50 per cent. discount? Are we to be swindled atlevery passed by the legislature.

Do our tax payers step by the culpable mismanagement, or gross incompetency, of our city officials? Is there no incompetency, of our city officials? Is there no makes the act itself null and void. Be they relief from such perpetual blundering, or steal- night, ought not to mise the opportunity of MANY TAX-PAYERS. Milwankoo, Murch 24.

MILWAUKEE: THURSDAY MORNING, MARCH 25

A Fair Offer.

A well-known and public spirited citizen, who is one of the "democratic" wheel-houses, sends the following communication to the News: To the Editor of the News :

There has been much said in regard to high taxes in our good city. I think they are quite too high and could get along with less in future, but in order to begin to economize our city expenses, let me sak the candidates now in non-ination if they will do the business of their respective offices, if elected, at the following rates:

Hermann Schwarting, \$2,500 per annum.
E. L. H. Gardiner, 1,600 "
Dighton Coreon, 1,000 "
Freducick Kowsler 800 " E. L. H. Gardiner, Dighton Corson, Frederick Kessler,

Your answer is solicited, all in friendship, to the best interests of our city and party. I will till to the best of my ability, and give the required bond to our city, in good faith and honesty, to do the business of City Trensurer for \$2,600 per annum: and for Comptroller, acting in behalf of reducing tax payer's expenses, in every honorable way, for the sum of \$1,600 per Believing it as much as the duties are worth, and also it proportions Itself to our working in other capacities, yours with great respect, and a democrat for fourteen years in our city and always before in the old Pine State.

Abnes Kirar.
Better known as "Old Kirby."

The salaries now paid to these officers are as follows: Comptroller, \$8,600; City Attornoy, \$2,800; Marshal (fees) \$1,500; Treasures (fees) from \$7,500 to \$10,000. That these are excessive and extravagent, no one will deny. They are at least double what the same grade of service and degree of responsibility command in private business. Yet why should the people be required to pay twice as much as individuals do?

The Charter Amendments retrench these onermous salaries. But the News and its clique of Office helders and Tax-Esters, oppose these amendments: while the same party in the present Council refuse to reduce the salaries. How long will the People quietly submit to be wronged and plundered after this fashion?

For the Section. How Mr. Lynde was Defeated. Ms. Epiron :- I notice sundry "explanations, in the News and Santinel, of Mr. Lynde's defeat in the Democratic City Convention. There may be some truth in your supposition that the News burt Mr. LYNDE more than it beloed him; and that the Tax-Eaters rejected Mr. L. because he this year to cosign in his, or any other person's is in favor of the Charter Amendments. But favor, is nothing more nor less than a barefacad this is not the whole story. There were enough sound Domocrats, in favor of Reform, in our Convention, to have nominated Mr. Lynon, but for a characteristic trick of Alderman Hadley .-It is a well ascertained fact that on Saturday. the day our Ward Caucuses were held, two-thirds, if not, more of the Delegates elected, were le favor of Mr. LYROZ. But on Monday, when the Convention met, four-lifths were opposed to him. I am credibly informed that the change was brought about by Ald. Hadley and others going round among the delegates, between Saturday night and Monday neon, and representing that it would not do to nominate Mr. Lynns, be cause he was an Aristocrat. a Temperance-man a member of the Church, &c., who, if elected Mayor, would close the Gorman Theatre, and all the German Beer Hulls, Dancing Houses and Gardens on Sandays! All who know how ousily the fears and prejudices of our German citizons can be excited on these points, will see how cloverly the Hadley party played their cards. They did the business for Mr. LYNDS, who, as Mayor, would have stood in their way and defended the Treasury from their attacks.

A REPORM DEMOURAT. Milwaukee, March 24,

ANTI LECUMPTON MESTING AT WAUKESHA .-The Waukesha Democrat gives notice of a Domcoratic Mass Meeting at that place on the 7th day of April next, to days an expression on the great question now agitating Congress and the country. The Democrat says:

It is high time that the Democrats of this County had assembled in their strength, and speken in thunder tones against any and every at-tempted violation of the Kansas Nebraska act.

It will be the largest and most important gath-

oring over assumbled in any part of the country. The bone and sinew, and talent of the Union will be there. The place is appropriately choson. The convention will have a great political significance, and is looked for with ominous aux-lety. Such men as Douglas, Forney, Walker, agguideance, and is looked for with ominous anx-lety. Such men as Douglas, Forney, Wolker, Wise, Denver, and a host of like men, grown gray in the service of the Democratic purty, will be there. Lola Monte on Love.—If some Yankee boy could discover a means of preserving love, as we preserve pork, what an excellent thing it would be! But sha! no east could cure the great bane of love—too much of each other's company. My advice, said Lela, is, that murried people part as often as possible, and stay away as long as possible, so as to give a little tinge of feeness to their meeting again. It is a great deal easier to win a man over than to keep him. Strange it is to see what great pains men and women take to win each other, and how little to bold on to each other.

But he is a Northern laborer, one who gets an humble living by the sweat of the brow, and one of the class stigmatized by Senator Hammond as elaves.

This worthy mechanic, however—this child of toil—this Northern slave as he would be 'termed by the degenerate son of a New England sire—is the father of a Southern greentative. In that old house Mr. Maynard, the 'representative of the Second District in Tennessee, was born.—Here his of the insurand has useful sulfice and his

It has been said, and perhaps truly, that Yan-kees make the hardest slave drivers. So a New England man; who has fairly turned his back on the home of his childhood, and identified himself with Southern interests, is too often the most ready to attack the interests of the section to which he owes all that he is:

THE Two Doors or the Heart,-Every per-The Two Doors of the Merry.—Every parson's feelings have a front-door and a side-door by which they may be entered. The front door is on the street. Some keep it always open; some keep it latched; some, locked; some bolted—with a chain that will let you peep in, but not get in; sud some natilitup, so that nothing can pass its threshold. This front door lends into a pessage which opens into an antercompand this into the interior apartments. The side door needs at once into the screed champers. and this into the interior apartments. The side door opens at once into the sacred chambers.

There is almost always at least one key to this side door. This is carried for years hidden in a mother's bosom. Fathers, brothers, sisters, and friends, often, but by no means so universally, have durillest sofit. The wedding-ring convey a right to one; also, if none is given with it!

It nature or accident has put one of these keysing the hands of a passent one of these keysing the hands of a passent of the section.

into the hands of a person who has the torticing instinct, I can only solemnly pronounce the words that Justice utters over its doomed victim. —"The Lord have mercy on your soul!" You will probably go mad within a reasonable time—or, if you are a man, run off and die with your head on a curb-stone, in Melbourno or San Fran-Cisco—or, if you are a woman, quarrel and break your heart, or turn into a pale, jointed petrifaction that moves about as if it were alive, or play some real life tragedy or other.

Be very careful to whom you trust one of those keys of the side door. The fact of possessing one randors those even who are dear to you very turnible at times. You can keep the world out terrible at times. You can keep the world out from your front door, or receive visitors only when you are ready for them; but those of your own flesh and blood, or of certain grades of inti-macy, can come in at the side door, if they will, macy, can come in at the side door, if they will, at any hour and in any mood. Some of them have a scale of your whole nervous system, and can play all the gamut of your sensibilities in samitones—touching the naked nerve-pulps as a pianist strikes the keys of his instrument. I am satisfied that there are as great masters of this nerve-playing as Vieuxtemps or Thalberg in their lines of performance. Married life is the school in which the most accomplished artists in this department are found. A delicate woman is the best instrument; she has such a magnificent

the best instrument; she has such a magnificent compass of sensibilities! From the deep inward moan which follows pressure on the great nerves of right, to the sharp cry as the flaments of taste are struck with a urashing sweep, is a range which no other instrument possesses. A few exercises on it daily at home fit a man wonderfully for his habitual labors and refresh him infaily for his habitual labors, and refresh him lim-mensely as he returns from them. No attauger can get a great many notes of torture out of a human soul; it takes one that knows it well parent, child, brother, sister, intimate. Be very careful to whom you give a side-door key; too many have them already,—"Autocrat of the Breakfast Zuble."

NEWFFAPERS.—A cotumporary wisely suggests that readers of newspapers are little aware of what they are lesing by destroying the issues they are daily in the habit of receiving. If preserved and bound—which could be done at a triffing expense—they would have a connected record of current evants in the most convenient. record of current events in the most convenient and comprehensive shape, which would at all times be valuable as a book of reterence, besides affording great pleasure in crying old recollec-tions and associations in the minu of the real tions and associations in the mind of the read-er. He would therein have a chain of history— essentially local, yet somewhat general in its character—growing link by link, yearly becom-ing of more interestand value. It would be an oncyclopedia—a cabinat of literature, of infor-mation in the sciences and arts, history and bio-graphy—a volume embellished with an occasion-al gem of thought of the first water, which, if not thus preserved, would be wholly lost. It would be a museum in which the most invoco-rate statistician could flud deposite worthy of his attention, while at the same time it would afford a field of delights in which the most accombilisha field of delights in which the most accomplished in intellectual attainments could revel for

A lady tells this story: I have been out in India on a visit, and while there I found a kitten, which I bought and brought home for a plaything for my two children. To prevent any dispute about the ownership of puss, I proposed, and it was agreed, that the head of the kitten, should be mine, the body should be the baby's, and Eddie the eldest—but only three years—should be the sole preprietor of the long and should be the sole proprietor of the long and beautiful tail. Eddie rather objected at first to this division, as putting him off with an extremely small share of the animal, but soon, become reconciled to the division and quite proud of his ownership in the graceful terminus of the kitten. One day, soon after, I heard the puss making a disadded maying and I called out to Eddie. A new Book, splends bound. A large assortment of JUVENILE BOOKS.
